Our Founder And Chairman

In 1985, **Mr. Jawahar Luthra**, Chairman of Divine Group, left his hometown Indri in Haryana and began his entrepreneurial journey trading electronic parts in Delhi's Lajpat Rai Market. Two decades later, in 2004, his vision expanded into real estate with the successful launch of **Divine City** on NH 1.

What began as one plotted township has now grown into a trusted brand with over **5 Million sq. ft.** of delivered developments. Today, the group is actively building **2 Million sq. ft.** of residential and commercial spaces, carrying forward a legacy of excellence. His leadership continues to inspire Divine to set new benchmarks in quality, community and design.

Man Behind Divine's Direction

After graduating from Deakin University, Melbourne, **Mr. Himashu Luthra** began his entrepreneurial journey in the global electronics trade spanning across 5+ countries and over 20 years. But his passion for building something lasting brought him back to India, where he envisioned a better way to create value through real estate.

In 2005, Joined **Divine Vision Infratech**, driven by global thinking and a deep understanding of investor trust. Under his leadership, Divine has grown from a plotted housing developer to a respected name across Karnal, Gaur, and Kurukshetra, serving over 5,000 families and delivering 9+ RERA-approved townships. Today, he continues to lead with the same belief:

real estate is not just about selling land, it's about building futures.

Our Story

What began in **2005** as a vision to create honest value-driven real estate has today become a trusted name across Haryana. Divine Vision Infratech was built on the belief that plotted development can offer more than land, it can offer freedom, legacy and security. Over the years, we've transformed that belief into **7+ successful projects, serving thousands of families and investors.**

And we're just getting started.

Divine City, Ganaur

Divine's First Step Toward Holistic Communities
